

July 29, 2020

Dear Family and Friends,

Most protocols at Comprehensive Systems, Inc. remain in place regarding COVID-19. We are happy to have gotten to the point where outdoor visits can be scheduled for some areas. Contact your area manager to help determine if an outdoor visit can safely happen with your loved one. As a reminder, there are guidelines in place for these visits. As always, you can schedule visits in alternative ways as well (telephone, zoom, FaceTime, window visits, etc.).

Our New Hampton Treasure Chest store has been open. We are waiting on a couple of pieces of equipment to arrive, but hope to open the Charles City Treasure Chest store soon. With increased cases of COVID-19 in many of the areas where we provide services, and in order to protect vulnerable individuals, we are not opening our Small Group Employment and Day Habilitation Programs at this time. We continue to evaluate these day services and we will let you know when we feel we can safely re-open.

Ryan Becker
Associate Director
